PROFESSIONAL SUMMARY

Undergraduate in Information Systems and Front-End AI Engineering Intern, with hands-on experience developing solutions involving Front-end, Artificial Intelligence, and API integration. I have been expanding my software development background through projects, bootcamps, hackathons, and hands-on experience with Java, Spring Boot, React, TypeScript, and AI-powered application technologies. I hold complementary training in IT Support and Cloud, along with certifications in cloud and Artificial Intelligence technologies. I am seeking opportunities in Software Development, especially in projects that combine development and Artificial Intelligence.

EDUCATION

Bachelor's Degree in Information Systems – UFRB Mar/2026 - Jan/2030

TECHNICAL SKILLS

Development: Java | Spring Boot | React | TypeScript | Next.js | HTML | CSS | Tailwind CSS

Back-end & Data: REST APIs | PostgreSQL | API Integration | Sanity

Artificial Intelligence: AI APIs | AI Agents | AI Tools Integration

Cloud & DevOps: AWS | EC2 | OCI | Vercel | Git | GitHub

Tools & Practices: Figma | UI/UX | Responsive Design | Accessibility | SEO

PROFESSIONAL EXPERIENCE

FlyRank – Front-End AI Engineering Intern | Jun/2026 – Present

- Develop responsive web interfaces with the support of Artificial Intelligence tools and modern frameworks.
- Turn designs into functional, responsive pages optimized for different devices.
- Implement solutions focused on visual quality, usability, accessibility, and performance.
- Collaborate on the development and improvement of web projects using current Front-end and AI technologies.

Freelance – Back-end & Front-end Developer | Jul/2025 – Aug/2025

- Developed professional websites using React and TypeScript.
- Implemented the application structure and styling with HTML and CSS.
- Integrated Sanity for content management and editing.
- Set up SEO practices to improve the site's indexing and visibility on search engines.

PROJECTS

Personal Portfolio – Full Stack Developer | 2026

- Developed a personal web application to showcase projects, experience, and professional skills.
- Implemented the interface using React, TypeScript, Next.js, and Tailwind CSS.
- Structured reusable components and applied responsiveness, accessibility, and UX best practices.
- Deployed and maintained the application in a production environment.

AI Agent – Full Stack Developer | 2026

- Developed an AI agent capable of performing tasks through integrated tools.
- Implemented a conversational interface and integrated AI services into the application.
- Structured tools and workflows for end-to-end task execution.
- Deployed the application and tested its main features.

Academic Planner – Full Stack Developer | 2025 – 2026

- Designed and developed a web application for organizing and managing academic activities.
- Implemented information management and interaction features.
- Structured the interface using modern web development technologies.
- Deployed the application and applied software development and release best practices.

Sentiment API – Back-end Developer | Jul/2025 – Aug/2025

- Developed a sentiment analysis API using Java, Spring Boot, and PostgreSQL.
- Implemented endpoints for processing and managing application data.
- Integrated the back-end with Data Science and Front-end teams.

- Contributed to a solution capable of analyzing large volumes of text feedback.

LICENSES & CERTIFICATIONS

Oracle Cloud Infrastructure – Certified Foundations Associate – 2025

Ada Tech – Front-end with React – 2025 – 48h

Google – IT Support – 2024 – 120h

Google – UX Design – 2024 – 340h

Santander Coders – Back-end Java – 2024 – 324h

LANGUAGES

Portuguese – native

English – advanced

Spanish – advanced

French – intermediate
